EDUCATION

B.Tech CSE Computer Science Engineering Shadan Women's College Of Engineering & Technology (JNTUH)

12/2020 - 07/2024

Hyderabad, India

PERSONAL PROJECTS

Tweet Scheduler (12/2024 - 12/2024)

- Automated scheduling systems for social media posts using Node.js and node-cron.
- Features include reading tweets from JSON files, scheduling posts at specific times, and moving posted tweets to an archive file.
- Demonstrates automation and API integration for efficient social media management.
- GitHub Link : <https://github.com/Asiyaa22/Automate>

RoadmapsAi (01/2025 - Present)

- Career-planning web app leveraging AI to guide students in achieving career goals.
- Integrated features like motivational notifications, chart to track progress, resources and personalized dashboard.
- Built using the PERN stack, focusing on customized learning paths.
- GitHub Link : <https://github.com/Asiyaa22/RoadmapsAi>

OTP Verification System (12/2024 - 12/2024)

- Implemented a secure authentication system using Node.js, Express, and Twilio API.
- Features include OTP generation, delivery via SMS, and validation for user authentication.
- Demonstrates expertise in integrating third-party APIs and implementing secure systems.
- GitHub Link : https://github.com/Asiyaa22/OTP_VERIFICATION_SYSTEM 

Real-Time Tracker (11/2025 - 11/2025)

- Developed a real-time tracker for managing live updates on events.
- Used Node.js and Web Sockets to deliver instant updates.
- GitHub Link : https://github.com/Asiyaa22/Realtime_Tracker

WORK EXPERIENCE

Backend Developer Intern

Verzeo

06/2022 - 07/2022

Remote

Achievements/Tasks

- Learned and implemented backend technologies, including Django and MongoDB.
- Built a CRUD-based project, showcasing proficiency in creating, reading, updating and deleting operations.
